1000ml

dragonfli

# Calcium Boost

Liquid Calcium Fertilizer

Provides multifunctional boost for plants; especially during stressful situations and times when calcium deficiency expected. Reduces plant disorders such as Blossom end rot on Tomatoes and Bitter pit on apples and pears. Unique formulation helps plants absorb calcium more efficiently. Can be used with many different plants including: Apples, Tomatoes, Cane Fruit, Grape, Lettuce, Pears, Strawberries and ornamentals.

## Directions for use

- For every 10 litres of water add one measure of 30-70 mil from the dosage chamber directly into your spraying equipment
  - Spray on foliage and leaves or as drench to root zone
- Apply at 7-14-day intervals during times of plant stress or when fruit forming
  - See Leaflet guide for specific plant/crop instructions
  - Avoid co-application with foliar fertilisers

## Precautions

- Wash hands after use, avoid contact with eyes and skin, do not drink or swallow
